A sense of shared purpose or identity unites participants and sustains engagement. Staggenborg emphasizes the importance of identity in motivating collective action and fostering solidarity.

The Evolution of Social Movements: Staggenborg's Perspective

Staggenborg's research underscores that social movements are dynamic entities, constantly evolving in response to internal and external factors. Her analysis often distinguishes between different stages:

- Emergence: The initial rallying around a shared grievance or issue.
- Coalescence: The organization of participants and development of strategies.
- Bureaucratization: Formalization of the movement's structure, often leading to increased stability but possibly reducing spontaneity.
- Decline or Transformation: Movements may fade, be absorbed into institutional channels, or evolve into new forms of activism.
