Solution Approach:

- Describe the functions and objectives of each institution.
- Analyze real-world case studies where these institutions intervened.
- Discuss criticisms and limitations of their roles.

Practical Application:

Knowing how these institutions operate is vital for financial managers engaging in international projects or advising governments on economic policies.

Problem 3: Risks in Multinational Finance**Scenario:**

Identify and explain the main types of risks faced by multinational firms operating across different countries.

Analysis:

This problem emphasizes risk management principles by categorizing risks such as:
